

GENERAL

The 2017 year saw an exciting second year for the Intramural Sports Competition. UniLodge joined in 2017 with 8 residences and colleges in total participating in the competition. There were some spectacular matches and fantastic competition with a large number of students getting involved and trying new sports.

There were seven sports held throughout the year – Futsal, Basketball, Badminton, Table Tennis, Netball, Ultimate Frisbee and Spikeball with ESports not going ahead.

Congratulations to all participating residences and colleges this year and special congratulations to Sancta Sophia for winning the Liane Tooth Cup and International House for winning the Thomas Whalan Cup.

While the year started off well with majority of residences competing in each event, poor communication from convenors meant that some residences didn't compete as students weren't aware that events were being held. The residences who dominated the competition this year simply did so because they consistently participated in each event this year. Better planning of the Intramural Sports calendar as well as more marketing and communication initiatives in 2018 should assist convenors with organising teams for each event.

Next year will see six sporting events with Futsal, Basketball, Netball and Spikeball returning and the introduction of Touch Football and Volleyball.

Operational changes made to Intramural sporting events in 2017:

- A “social competition” was scheduled at some of the events to encourage student participation, engage spectators and award bonus points to residences who participate
- Spikeball event moved later in the afternoon
- Music was played during some events and between games for other events
- A practice session was scheduled with the sports officials prior to some events
- Separate competitions were held on set courts to avoid confusion and streamline marshalling during the “multiple competition events” (Badminton, Table Tennis and Spikeball)
- Game start times weren't set for Badminton, Table Tennis and Spikeball allowing for smoother marshalling of each competition

Recommendations for 2018

- Consider communicating with two convenors and one residence staff member to ensure necessary information is being passed onto students and all residents have the opportunity to participate
- Ensure Sports Council Convenors have the necessary marketing materials to promote their residences participation in each event
- Better marketing of each events to potential participating students through newsletters, o-week presentations, flyers, brochures, posters on boards and social media
- Spreading events evenly across the year and closer to the start of semester to boost participation
- Introduce a forfeit policy to ensure that late forfeits don't continue
- Offer more team sports to encourage more spectators and higher participation
- Monitor spectator attendance and consider moving larger sports to court 1 and 2
- Introducing an outdoor event and holding events in different facilities
- Having food and decorations at events to encourage students to attend and to boost participation

Overview and recommendations for 2018:

- The Spikeball event was moved later and students were offered the chance to attend the Flames WNBL game afterwards
- The event was held quite late in semester, hold events earlier rather than later in semester
- A practice session with rules and a quick lesson was held before games started allowing for the students to cover the rules with the officials prior to the start of competition
- Playing best of 3 games to 11 worked well
